

Application No.: 10/089,577
Amendment Date: March 10, 2005
Amendment Under 37 C.F.R. § 1.312

REMARKS

Entry of this amendment after allowance is requested under 37 CFR § 1.312.

The amendments are made to four paragraphs of the specification. The amendments correct non-substantive errors (typographical and spelling) which were not noted earlier. The amendments clearly are proper as they correct apparent errors and do not present any issues of new matter. The amendments have no impact on the claims. The correctness and desirability of the amendments can be determined on simple inspection and without meaningful examining effort by the Office.

Respectfully submitted,
